

Watercolor Pencils for Botanical Art Materials List

Sketching paper
Tracing paper
Sketching pencils (B and 4B would be enough) and kneaded eraser
Small watercolor brushes
Container for water
Rag for cleaning brushes
Manual pencil sharpener (I will also have one to share)

Watercolor pencils - to keep materials cost down, I am recommending a 12-color set from one of the following brands. They are both about \$20 on dickblick.com.

Derwent Watercolor Pencils (not Inktense) or
Faber Castell Albrecht Durer Watercolor Pencils

You are welcome to purchase a larger set if desired, but I will have a variety of colors at the workshop that can be borrowed during class. Pencils can also be purchased individually later if you decide you want to add certain colors.

We will discuss integrating watercolor pencils with regular watercolors and regular color pencils, so if you already have those materials you can also bring them along.

I will provide paper.
