| <b>Maryland Master Naturalist Volunteer &amp; Training Hours</b> |             |  |
| Last Name:   | First Name: | Year:   |

Master Naturalists are required to do 8 hours of advanced training and 40 volunteer hours each year. Note: You may include travel time incurred in excess of 30 minutes to and from volunteer assignments.

Approved activities include (but are not limited to):

1. **Educational activities:** Classes, workshops, presentations, demonstrations (including preparing and developing materials); phone consultations, posters, displays, articles, research, interpretive walks, guided tours, site visits, technical assistance to community groups, etc.
2. **Stewardship Activities:** Hands-on activities to improve habitat & other natural resources (invasive plant removal, habitat restoration, trail building)
3. **Citizen Science Activities:** Data collection, monitoring, biological inventories, other research-oriented activities (bird censuses, frog watch)
4. **Special Events, Information Booths**
5. **Support/Management Activities (that benefit the public):** planning programs and activities, for the public, outreach, publicity, set-up and clean-up, grant writing, evaluation
6. **Internal Administration of Master Naturalist Program:** Administrative work that directly benefits the MN program itself. For example: screening applicants, organizing training, mentoring, hosting, communications (newsletter, website, phone tree), fundraising, public relations/marketing, advocacy, committee work, record-keeping, writing reports, volunteer recognition.
7. **Off-site volunteer service**

### Advanced Training

| Date                                 | Brief Description of Training | # Hours |
|--------------------------------------|-------------------------------|---------|
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
|                                      |                               |         |
