

ANTS ON PARADE

STOP TO
OBSERVE ANTS
ON YOUR
NATURE WALK.

- How many legs does each ant have? How many body segments?
- Where are the ants coming from? Where are they going?
- Put a small obstacle in the ants' path. What happens?
- If you have snacks in your pockets, place a few crumbs on the ground.

Do the ants prefer salty or sweet? Be sure to clean up any leftovers before you leave.

RIVER BIRCH ALLÉE
IS A GREAT PLACE
TO FIND ANTS!
